

Veronica Varela

Lead Product Designer

15+ years designing digital products and services, combining strategy, design, and execution.

I lead projects at the intersection of user needs, business goals, technology, and AI designing, prototyping, and building digital products with AI.

ABOUT

About me

Lead Product Designer with 15+ years of experience designing digital products across SaaS, enterprise, B2B and B2C environments.

I specialize in turning complex business problems into intuitive product experiences while aligning user needs, business goals and technical constraints.

Throughout my career, I've led product initiatives, built Design Systems from scratch, mentored designers, and partnered closely with Product Managers and Engineers.

More recently, I've integrated AI into my design process, from exploring concepts and prototyping to designing and building apps with AI, as well as creating AI-powered product experiences.

KEY ACHIEVEMENTS

- Integrated AI into product design and development, from concept exploration and prototyping to designing and building apps with AI.

- Led cross-functional product initiatives involving Product, Engineering and Design.

- Led scalable products that drove measurable business impact.

- Mentored designers across distributed international teams.

SKILLS

Tools & expertise

Core expertise

Product Design, AI Assisted Design & Prototyping, AI Optimization, Product Strategy, Product Discovery, Design Systems, User Research, Information Architecture, Accessibility, Design QA, Team Leadership, Mentoring & Coaching, Agile & Scrum Methodology.

Tools

Design
Figma, Adobe

AI & Development
Claude Code, Claude Design

Product
Jira, Confluence, Notion, Pendo, Trello

Language

Spanish
Native

English
Advanced Professional

EXPERIENCE

Professional experience

UX Designer focused on AI training - Micro1

May 2026 - Current

Leveraging human expertise and feedback to improve the reasoning and performance of AI models.

Technologies & Methods
UI Design / UX Design

AI product development - wstudio

Jan 2026 - Current (Self-employee)

Designing, prototyping, and building apps with AI

Technologies & Methods
Claude Code / Claude Design / Github / UI Design / UX Design

Lead Product Designer - UKG

Febr 2025 - Dec 2025

Led UX strategy for a product within the UKG suite, partnering closely with Product Managers, Engineers and Stakeholders to deliver scalable enterprise experiences. Achieved product objectives while modernizing the user experience, strengthening UI consistency, improving team collaboration and establishing a scalable vision for future product growth.

- Led product design from discovery through delivery.
- Balanced user needs, business objectives and technical feasibility.
- Introduced AI-powered experiences to improve productivity and usability.
- Mentored one designer while driving design quality and collaboration.
- Contributed to roadmap planning, prioritization, and long-term product strategy.

Technologies & Methods
Enterprise SaaS / Product Strategy / Discovery / AI / Figma / Jira / Pendo / Agile / Design Leadership

UX course teacher - Senpai

2024 - 2025

Contributed to the creation of course content and delivered live UX classes via Zoom for Senpai academy.

Technologies & Methods
Communication / Knowledge transfer / Leadership / Planning and coordination / Public speaking & presentation / Active listening / Conflict resolution / Mentoring & coaching

Senior Product Designer - oowlish (Client: Covetrus)

2022 - 2025

Designed enterprise software for Covetrus, collaborating with multidisciplinary teams across Product and Engineering.

- Built and evolved a Design System from the ground up.
- Helped standardize UI patterns and reusable components.
- Facilitated onboarding and knowledge-sharing sessions to improve Design System adoption.
- Partnered with stakeholders to translate business requirements into scalable user experiences.

Technologies & Methods
Enterprise SaaS / Design Systems / Product Design / User Research / Product Discovery

Product Designer - Halo Media (Client: Mercer)

2021 - 2023

Led the Design System initiative for Mercer products while designing enterprise software used by large organizations.

- Established reusable design foundations.
- Worked closely with Engineering to ensure implementation quality.
- Designed scalable product experiences across multiple workflows.

Technologies & Methods
Enterprise SaaS / Design Systems / Product Design / Product Strategy

UX/UI Designer - Globant

2019 - 2021

Designed enterprise applications for Rockwell Automation and Fiserv.

- Contributed to Design Systems using Material Design.
- Designed responsive web and native mobile applications.
- Mentored teammates and supported design quality initiatives.

Technologies & Methods
Enterprise Software / Material Design / Mobile / Web / Figma / Sketch

UI Designer & Front-end Developer - Tata Consultancy Services

2018 - 2019

Designed and developed interfaces for PwC while collaborating inside Agile transformation teams.

- Built production-ready interfaces.
- Worked with HTML, CSS and JavaScript.
- Participated in Scrum initiatives to improve delivery processes.

Graphic and Web Designer - Notable

2014 - 2018

Designed experiences for leading brands including ClaroUy, ClaroPY, Itaú, Abbott, Urufarma, Divino and Conaprole. Created landing pages, advertising campaigns, branding, mobile experiences and illustrations while mentoring junior designers.

Android and iOS Designer - Infragistics

2011 - 2014

Designed native Android and iOS applications following platform guidelines and collaborating with development teams.

Earlier Experience: Graphic Designer

2004 - 2011

Worked across advertising agencies creating branding, packaging, digital campaigns and illustrations for major Uruguayan brands.

EDUCATION

Academic background

UX Design

Acámica
